INTERNATIONAL. The Unresolved Problems of a Sick World <i>Orsola Casagrande and José Miguel Arrugaeta</i>	57
---	----

1. During the pandemic, it's every man for himself. 2. Unequal economic and social consequences in the first phase of the pandemic. 3. A transition from neoliberalism to neo-Keynesianism? 4. The global crisis and its unsolved problems: geopolitical clashes, migration and climate change. 5. "America is back!": has the Biden era begun? 6. A burdensome legacy: Cuba, Venezuela and Nicaragua, "enemy" countries in the region. 7. "Los de abajo" rebel: the crisis of the neo-liberal model and unstable democracies. 8. Haiti: mystery surrounding a murder. 9. The return of the United States to Europe. 10. European

Union: work in progress. 11. Right-wing forces in Europe. 12. The (non-existent) European migration policy and the threat coming from Turkey. 13. Erdoğan's attacks on the rule of law and democracy in Turkey. 14. Turkey's dangerous alliances. 15. Black Sea: a new war over gas? 16. Erdoğan's expansionist dreams and Biden's desire to end endless wars. 17. The withdrawal from Afghanistan. 18. The relationship between the US and Iran remains tense. 19. Yemen, the forgotten war. 20. Israel and Palestine: a conflict with no solution in sight. 21. Requiem for the Arab Spring. 22. Clashes break out again in the Horn of Africa. 23. Protests in South Africa. 24. Jihadism expanding south of the Sahara. 25. US-China relations: changing everything to change nothing. 26. Keywords: Bancada Ruralista, Bloqueo a Cuba, Economic sanctions of the European Union, Fal-sos Positivos, Frontex, Pegasus Project
Reference list

ENVIRONMENT. At the Roots of the Pandemic:

Animal Farming, Zoonoses and Deforestation

Alberto Zoratti

105

1. Biodiversity as an indicator. 2. Drivers of deforestation. 3. Agri-business and deforestation. 4. Oil and mining exploitation. 5. Business as usual, despite Covid-19. 6. The European Union-Mercosur Agreement. 7. Rights denied, peoples repressed, defenders killed. 8. Land Grabbing, the other side of the assault on the commons. 9. Land Matrix data for 2020. 10. Watergrabbing: the other side of resource hoarding. 11. The unstoppable increase of CO₂ in the atmosphere. 12. Ongoing desertification. 13. Oceans. The other frontier of climate change. 14. Climate. COP26 Glasgow 2021, a necessary milestone. 15. Donald Trump's alarming legacy. 16. Joe Biden and the change in pace. 17. Lights and shadows of the European Green New Deal. 18. Keywords: Adaptation, Circular economy, Conference of the Parties (COP), EU-Mercosur Free Trade Agreement, Extractivism, Free Trade Agreement (FTA), Human Rights Defenders (HRDs), Landgrabbing, Mitigation, Neo-extractivism, Paris Agreement, PPM, Sustainable development, Syndemic epidemic, United Nations Framework Convention on Climate Change (UNFCCC), Watergrabbing, World Meteorological Organization (WMO), World Trade Organization (WTO), Zoonosis
Reference list

WELFARE. The Right to Health and the Governance of the Pandemic

Susanna Ronconi

143

1. The race for vaccines and unfair distribution. 2. Covax and the others. The fig leaf on TRIPs. 3. The African case. Covax is a drop in the ocean. 4. Non negotiable patents. Hypocrisy at the G20. 5. The “third way” of the European Commission (and the WTO). 6. The world is actually ready to produce sufficient vaccines. 7. The victory of Big Pharma over governments. The weakness of politics. 8. Vaccines. Weak contracts, less enforceable rights. 9. Little transparency, a lot of lobbying. 10. Big Pharma. A flow of public money, a sea of private profit. 11. Human rights. The virus does not stop movements. 12. The virus of global poverty and inequality. 13.

Vaccine common good? Even global capital says so. 14. Poverty during the pandemic and the worsening of inequality. 15. The new “pandemic poor” are working men and women. 16. The women’s pandemic. The many faces of the gender gap. 17. Inside the home. Increasing domestic violence. 18. Locusts and Covid-19, the zero hunger mirage. 19. Fighting poverty in Europe. Already modest target at risk. 20. The virus of the gender gap for European women. 21. Social rights in the EU. More redistribution and less workfare is needed. 22. Keywords: AROPE (At Risk of Poverty or Social Exclusion), Big Pharma, Covax, Ever-green patenting, Gender Gap, Gender-based violence, Health determinants, Health inequalities, Health, Innovative Medicine Initiative (IMI), Public Private Partnerships (PPP), Reproductive health, Sustainable Development Goals (SDGs), Social responsibility for health, Syndemic, Trade Related Aspects of Intellectual Property Rights (TRIPs), Universal Health Coverage, Waiver (TRIPs waiver), Working poor
